and running under full sail, when sundenly the lookout sang out "Breake ars ahead?"

Almost at the same time the ship struck with a tremendous crash. She rose again on the heavy ground swell, lurched forward, struck again, was carried further by the seas, struck a third time and commenced settling at once. The seas by this time were washing over the vessel and the decks were quickly cleared of everything movable. The crew had taken to the rigging, most of them to the mizzen mast. Within half an hour after striking the hull broke in two. The main mast fell and this started the mizzen mast, in which nearly all the crew had taken which nearly all the crew had taken refuge. At this moment George Frazer, a salior, plunged overhoard, preferring to take his chances by swimming to be carried over by the tottering mizzen mast. He succeeded in catching hold of the main hatch and held on for a few minutes when he was told that the port life boat was near him. Frazer swam to the boat after a desperate struggle and succeeded in climbing into it, his shipmates in the rigging giving him three cheers. After helping McMahon and Webber into the boat they soon drifted on shore.

Panis, Nov. 21.—The American peace commissioners Saturday were closely engaged in formulating the terms of the important communication to be made to the Spanish commissioners next week. It is impossible at present, however, to determine whether the work will be completed for presentation on Monday or Tuesday, though it is believed the Americans will be ready on Monday. While the Americans fully appreciate the necessity of making progress they are also under the necessity of taking great care in the preparation of what may possibly be the conclusive record of these negotiations. The Spanish commissioners consumed a week in the preparation of the last memorandum.

Israel Zangwill is a Jew. He is of them and he is for them. He has that delicacy of touch that he can use the Jews as targets for his wit without injuring or offending them, though he hits the mark. Here are some of his epigrammatic sayings before the Jewish Educationa/Alliance in New York:

Jews not only furnished money for Colu-bus's expedition, but his first lieutenant was lew. This officer discovered tobacco, whis s greater than America.

It has always been the desire of Jewish fathers, however rich, to have learned sons-in-law, however poor. Speaking as a Jewish bachelor, I do not find this custom prevalent today.
